

2024/1 PRICE LIST

Our company Şensoylar was founded in 1978 under the TURKOGLU brand name Established and is one of Turkey's leading manufacturers of construction materials. Water meters, valves, water and gas flexible hoses, installation and fittings, fire equipment and speciality products. With its product reliability, durability, quality and stability, it is a professional and respected brand in its field and has become one of the leading companies in its sector.

Our products can be used in all fields of water, gas and waste water industry. In order to increase the sales rate in domestic and foreign markets, our company has been working with R & D studies in order to increase the sales rate of the markets. continues to invest in technological products according to their needs.

In order to meet the needs of our customers and dealers, our company has expanded its product range, product quality, sales and after-sales services and reached a wide dealer network in domestic and foreign markets. Our company exports to many markets around the world and has become a brand followed by its competitors in its sector.

Most of the production and management processes are certified according to ISO 9001, ISO 14001, OHSAS 18001, CE marked, MID, ISO-EU directives, GOST, EN and TSE norms.

By increasing the number of engineers and technicians in its structure, it has gained a better quality, dynamic and professional structure. Our company follows the determined vision and missions aims to be the brand followed in the sector.

The background of the entire image is a solid dark red color. Overlaid on this background is a pattern of numerous concentric circles. These circles are centered in the middle of the image and radiate outwards towards the edges. The lines of the circles are a slightly lighter shade of red than the background, creating a subtle, textured effect.

COMPENSATOR GROUP

AXIAL COMPENSATOR WITH METAL BELLOWS (WELDING NECK)
